## Bidding Guide/Options

- Click "Quick Bid" to manually bid the smallest increment; like raising your hand at an auction.
- Type in a Proxy Bid (Max Bid); The system will bid for you if someone bids against you, but only up to your max. You may increase your max bid at any time.

## **UPDATES: MAJOR CHANGE THIS YEAR:**

All lots will close at the SAME TIME, don't get nervous though, there will be MORE opportunities to bid!  
**Buyers have the CHOICE to switch to any lot in the offering if outbid on your current choice.**

1. ALL lots are scheduled to close at the same time. You can bid on ANY LOT, AT ANY TIME.
2. However, If there is a bid in the last **5 minutes**, time will extend by **5 minutes on ALL LOTS**.
3. ANY bid on ANY lot while the counter is under 5 minutes will continue to trigger the time extension.
4. This will continue until there are no more bids.

## **EXAMPLE:**

Say you have three lots picked out: Lot 2, Lot 4 and Lot 6. But **Lot 6** is your Favorite.  
Assume you get outbid on Lot 6. You still have a chance to go back to the top of the order and bid on lots 2 or 4 without missing out completely.

**PRACTICE!!!** We set up a practice lot so you can familiarize yourself with the controls and ensure your account is enabled. There is plenty of time to bid and practice.

**NOTE: We are unavailable to help with phone support in the last few minutes of the sale. Please test things out ahead of the sale!**
